

PHI DELTA KAPPA INTERNATIONAL

The Professional Association in Education

Application for Dual Membership

Chapter affiliated professional members of Phi Delta Kappa International may join an additional chapter at any time. Dual members remain in their initial chapter and join a nearby chapter by paying one international fee (\$70) plus the local dues for each chapter. A member must be in good-standing in his/her primary chapter, and submit the dues for the additional chapter, for a dual membership to become effective. A dual membership may be initiated online, by phone, fax, or by mailing this form to the international office. To locate a chapter, or to find the fee for a chapter, visit our website or call the international office.
